Skills

Next.js · React · TypeScript

Angular · Ionic · Tailwind CSS

Node.js · Go · REST API · WebSocket

Laravel · PHP · HTML · CSS

PostgreSQL · MySQL · Redis

Docker · Git/GitHub

Highlights

- BizLister - in production: cliqueja.org/biz/public/ - business directory and real operation.
- HouseFlow - in production: houseflow.alexdevcode.com/meio-a-meio/ - property management and mobile-first tasks.
- TimeClock - in production: timeclock.alexdevcode.com/auditor-app/public/ - time-tracking and management system with an offline-first approach.

Projects

Atlas - PWA with map and realtime chat

Next.js · React · TypeScript · Tailwind · Leaflet · Go · PostgreSQL · Redis

- Platform with grid + map, filters, discovery and realtime chat via WebSocket.

Planner (Infomercados) - planning and reports

Laravel · PHP · MySQL · Tailwind · Alpine.js · Vite

- Kanban-style flow for projects, phases and tasks, with quick input for reports.

SpaceX Data Pipeline - portable analytics stack

Python · PostgreSQL · dbt · Streamlit · Docker

- Reusable analytics stack (API v4 -> Postgres -> dbt -> Streamlit), designed for portability and local development.

Data Pipeline Scraping - end-to-end pipeline

Python · Airflow · PostgreSQL · dbt · Streamlit

- End-to-end pipeline for scraping, storage, transformation and data visualization.
